OTHER WONDERSOIL PRODUCTS

 TUNNEL FILL TUBE	Tunnel Fill keeps rodents from entering through all tunnels and slows re-infestation. The Tunnel Fill Tube will fill 50 linear feet of gopher tunnels and 200 linear feet of mole tunnels. Use for gophers, moles, voles, squirrels, groundhogs, skunks, bees, wasps or any other burrow or void in lawns or trees.	1 Tennis Can. 150x 1/2-inch Pellets. 1.5 Lbs.
 TUNNEL PLUGS	Tunnel Plug Wafers. Each can contains 18x of 2 1/2" expanding wafers that plug up tunnel openings and fill in bare spots surrounding tunnel openings. Tunnel Plugs will expand to cover the hole opening and are a perfect medium for plant seeds, seedlings, or grass.	1 Tennis Can. 18x 2 1/2-inch Wafers.
 TUNNEL FILL BAG	Tunnel Fill keeps rodents from entering through all tunnels. The Tunnel Fill Bag will fill 200 linear ft. of gopher tunnels and 800 linear ft. of mole tunnels. Tunnel Fill completely fills tunnels in turf, gardens or trees for 5 to 7 years. Use for gophers, moles, voles, squirrels, groundhogs, skunks, bees, wasps or any other burrow or void in lawns or trees.	1 Bag. 6 Pounds (Lbs.). 1 Bag. 25 Pounds (Lbs.).
 Pet Patch Brick	Pet Patch Brick is specially formulated to fill bare lawn spots and holes. It is impossible to stop pets from digging away at your yard and garden. With a fully balanced dose of nutrients in addition to our expanding soil, Pet Patch creates a perfect foundation to fix damaged soil and promote faster germination for seed.	1 Brick. Expands to 1/3 Cubic Feet (2.5 Gallons or 9.5 Liters).
 Pet Patch Bag	Pet Patch Bag is specially formulated to fill bare lawn spots and holes. It is impossible to stop pets from digging away at your yard and garden. With a fully balanced dose of nutrients in addition to our expanding soil, Pet Patch creates a perfect foundation to fix damaged soil and promote faster germination for seed.	1 Bag. Covers 80 Square Feet.
 STARTER POTS & WAFERS	Starter Pots contain our expanding wafer plus a biodegradable fiber pot for a completely self-contained seed started kit. Each pot is housed in a porous and biodegradable fabric case that grows with the soil from a wafer to a self contained pot. They are able to be transplanted directly into the ground without the risk of root shock.	1 Tennis Can. 18 Convenient Wafers & Biodegradable Pots. Fills 18x 4-Inch Pots.
 BOOSTER FERTILIZER PELLETS	Expanding Booster Nutrient Pellets. Our standard pellets with an extra dose of nutrients (3.0-2.0-3.0). Designed to work as a healthy supplement to existing soils, a general fertilizing booster, or a rich and healthy stand-alone planting soil so you don't have to mix and measure your own nutrient supplements and additives again. Each pellet lasts up to 4 months. Contains: Coco Coir, Worm Castings, Humus, Kelp, Nutrients, Mycorrhizae, Water Saving Polymers.	1 Tennis Can. 150x 3/4-inch Pellets. 4 Months of Feeding.
 EXPANDING TOMATO LOG	Wonder Soil® expanding potting mix wafers made with buffered coir. Ten 4" (10 cm) wafers. Expands to fill an upside down tomato planter.	1 Expanding Log. 10x 10cm Wafers.
