Material Safety Data Sheet

beetleGONE!

1. Chemical Product and Company Information
   - Product Name: beetleGONE®
   - EPA Registration No.: 88347-3
   - Ingredient Name: Bacillus thuringiensis serovar galleriae strain SDS-502 (Microbial)
   - Chemical Name: Not Applicable
   - Formula: Not Applicable

2. Composition/ Information on Ingredients
   - Component: Bacillus thuringiensis
   - CAS#: 68038-71-1
   - WT%: 76.5
   - OSHA PEL: Not Established
   - TLV's: Not Established
   - TWA STEL: Not Established

3. Hazards Information
   - Emergency Overview
     Causes moderate eye irritation. Harmful if absorbed through the skin or swallowed. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

   - Hot Line Number
     Have the product container or label with you when calling a poison control center or doctor, or when going for treatment. For emergency information concerning this product, call the National Pesticide Information Center (NPIC) at 1-800-858-7378 seven days a week, 6:30 am to 4:30 pm, Pacific Time (NPIC Web site: www.npic.orst.edu). During other times, call your poison control center at 1-800-222-1222.

   - EPA Signal Word: Caution

   - Potential Health Effects
     - Route(s) of Entry: Eyes, skin, oral, inhalation
     - Human Effects and Symptoms of Overexposure: Irritation of eyes or skin
     - Acute Eye Contact: Causes moderate eye irritation
     - Chronic Eye Contact: Chronic exposure not likely from normal use
     - Acute Skin Contact: Acute exposure may cause skin irritation
     - Chronic Skin Contact: Chronic exposure not likely from normal use
     - Acute Ingestion: Chronic exposure not likely from normal use
     - Chronic Ingestion: Chronic exposure not likely from normal use
     - Acute Inhalation: Acute exposure not likely from normal use
     - Chronic Inhalation: Chronic exposure not likely from normal use
     - Carcinogenicity
       - NTP: N/A
       - LARC: N/A
       - OSHA: N/A

   - Medical Conditions Aggravated By Exposure: Individuals with pre-existing dermatitis or inflammation
4. First Aid Measures

If in eyes: • Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call poison control center or doctor for treatment advice.

If on skin or clothing • Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

If swallowed • Call a poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to by a poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

5. Fire Fighting Measures

NFPA Hazard Classification

Health Hazard 1
Fire Hazard 0
Reactivity 0

Extinguishing Media: Dry chemical, foam, or carbon dioxide

Unusual Fire Fighting Explosion Hazards: Thermal decomposition products may include, but are not limited to, CO₂, H₂O, and particulate fillers.

Special Fire Fighting Procedures: None

6. Accidental Release Measures

Spill or Leak Procedure: Wear chemical safety glasses with side shield or chemical goggles, rubber or latex gloves, long-sleeved shirt, long pants, and a NIOSH-approved dust or pesticide respirator with a dust prefilter. For small spills, sweep up, keeping dust to a minimum, and place in a sealed container. Wash the spill area with water containing a strong detergent, absorb with paper towels, and/or sweep up and place in a biohazard bag. Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

7. Handling and Storage

Storage Temperature (Min/Max): 32 / 90 F 0 / 32 C
Shelf Life: Stable at Room Temperature
Handling and Storage Precautions: Store in a cool, dry place inaccessible to children.

8. Exposure Controls / Personal Protective Equipment (PPE)

Applicators and handlers must wear:
• Long-sleeved shirt and long pants
• Waterproof gloves
• Shoes plus socks

Mixers/loaders and applicators must wear a dust/mist filtering respirator meeting NIOSH standards of at least N-95, R-95, or P-95. Repeated exposure to high concentrations of microbial proteins can cause allergic sensitization.

Follow the manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions are available for washables, use detergent and hot water. Keep and wash PPE separately from laundry.
Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

11. Toxicological Information

**Acute Toxicity/ Irritation Studies:**

- **Ingestion or Oral:** No acute oral toxicity is expected
- **Dermal:** The estimated LD50, as indicated by the test data, was determined to be greater than 2020 mg/kg.
- **Eye Contact:** The test substance is rated minimally irritating and assigned to Toxicity Category IV.
- **Inhalation:** Standardized tests were conducted. The reviewer noted that no acute inhalation toxicity is expected and assigned Toxicity Category IV.
- **Skin Contact:** See Dermal above
- **Skin Sensitization:** See Dermal above

**Mutagenic Potential**

- *Bacillus thuringiensis* Not Available

**Reproductive Hazard Potential**

- *Bacillus thuringiensis* Not Available

**Chronic/ Subchronic Toxicity Studies**

- *Bacillus thuringiensis* Not Available

**Carcinogenic Potential**

- *Bacillus thuringiensis* Not Available

**Other Toxicity Information**

12. Ecological Information

Environmental hazards: For terrestrial uses: Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment, wash waters or rinse water.

This product must not be applied aerially within ¼ mile of any habitats of threatened or endangered Lepidoptera or Coleoptera. No manual application can be made within 300 feet of any threatened or endangered Lepidoptera or Coleoptera.

Summary of Effects: Bacillus thuringiensis

**Microbial Pest Control Agent (MPCA) Freshwater Aquatic Invertebrate Test with Daphnia magna**

The chronic toxicity of the microbial pest control test substance (SDS-502 TGAI) to the mortality, reproduction and growth of fresh water invertebrate *Daphnia magna* was assessed in a 21-day static renewal test. No toxic effects due to the test substance were found.

**Eco-Acute Toxicity**

*Bacillus thuringiensis* No Toxicity to European honeybee or beneficial wasps

**Evaluation of Dietary Effect of SDS-502 Cry8Da on Larval Honeybee Development (Apis mellifera L.)**

The objective of this study was to evaluate potential dietary effect of a SDS-502 Cry8Da protein toxin concentrate in combination with 30% sucrose on development of the honeybee larvae, (*Apis mellifera* L.). A dietary study was chosen because ingestion of the SDS-502 Cry8Da protein toxin is anticipated to be the primary route of bee exposure.

Based on the data analysis, there were no significant differences in the survival probabilities of honeybee larvae between the SDS-502 Cry8Da protein toxin in combination with 30% sucrose, 50 mM CAPS Buffer (test substance), or sterile water (negative control) treatments, while the potassium arsenate (chemical control) treatment had no survival.

**Environmental Fate**

*Bacillus thuringiensis* Significantly decreased and disappeared

13. Disposal Considerations

Waste Disposal Method: Nonrefillable container. Do not reuse or refill containers. If empty: Place in trash or offer for recycling if available. If partially filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

14. Transportation Information

**D.O.T. Proper Shipping Name** N/A

**Technical Shipping Name** beetleGONE!

**D.O.T. Hazard Class** Not Regulated

**U.N./N.A. Number** N/A

**Product RQ (lbs.)** N/A

**D.O.T. Label** N/A

**D.O.T. Placard** N/A
