

# FIESTA®

## LAWN WEED KILLER

Fiesta® Lawn Weed Killer is a selective, broadleaf weed killer that leaves lawns healthy and weed-free using a specially formulated iron chelate solution. Fiesta® works quickly, delivering visible same-day results, even in cool weather. And since Fiesta® is made from iron, it has no unpleasant odour during or after application, and pets and people can reenter the treated area once the spray is dry. Suitable for broadcast application or spot treatment, Fiesta® is a versatile, patented product that will help grass look its best, even in pesticide restricted areas such as parks, golf courses, cemeteries, sports fields, and playgrounds. This product is ideal for lawn care where pesticide bans exist.

- Liquid selective herbicide that effectively kills broadleaf weeds in the lawn
- Works fast and weed control can be seen in the same day
- Made with iron
- People and pets can enter treated area when spray dries
- No unpleasant odour
- Rain-fast in 3 hours
- Effective even in cool weather

Active Ingredient: Iron present as (FeHEDTA)

### BEFORE TREATMENT WITH FIESTA

Mode of Action: Iron is bound to a chelating agent, hydroxyethylenediaminetriacetic acid (HEDTA), which keeps the iron soluble and readily available for plant uptake. Broadleaf weeds absorb chelated iron easily and in larger quantities than grass does, which leads to cellular damage and ultimate plant death in broadleaf weeds while grass remains unharmed.
