Study Confirms Complete Mite Control with KeyPlex ECOTROL® PLUS

Effects of botanical Ecotrol Plus compared to conventional miticides on spider mite density

ECOTROL® PLUS INSECTICIDE/MITICIDE

KeyPlex ECOTROL® PLUS is a broad spectrum insecticide/miticide that delivers maximum performance with minimal environmental impact for both conventional and organic crop production. Using a patented combination of plant oils, ECOTROL® PLUS unique dual-mode-of-action (octopamine blocker and sufficant) provides quick kill and control to all stages of insect development. Other product features include:

- Ecotrol Plus is equal to or better than conventionalals in controlling mite populations
- Ecotrol Plus provides residual control of mites for 3-4 weeks
- Ecotrol Plus is EPA exempt and USDA NOP compliant
- Ecotrol Plus has no pre-harvest or reentry intervals
- Ecotrol Plus attracts beneficials into the treated area

KeyPlex is the leader in botanical pesticide solutions derived from natural plant oils, and is the first company to economically enable a realistic shift from synthetics to botanicals in the agricultural and greenhouse/nursery markets.
